

GHANA EDUCATION SERVICE

VOLTA REGIONAL EDUCATION  
DIRECTORATE, HO

**REPORT ON THE 2020  
BECE AND WASSCE  
RESULTS ANALYSIS**

*Prepared by: The Planning Unit*

*May, 2021*

## **1.0 INTRODUCTION**

The Volta Regional Education Directorate has observed the low performance of candidates from the Basic and Second cycle schools in the Basic Education Certificate Examination (BECE) and the West Africa Senior School Certificate Examination (WASSCE) respectively. In the BECE for example, the region has not seen a pass rate of 50% or above since 2009. The WASSCE results have also not shown improvements especially in the core subject areas.

The Regional Directorate in collaboration with the key stakeholders and the leadership of the Schools has invigorated some steps and activities such as intensification of supervision, enforcement of discipline among workers and students, and the establishment or revival of school boards (BoGs) and School Management Committees (SMCs) to reverse the poor trend of performance. Other activities also included capacity building for staff, distribution of materials, participation in quiz and debate competitions as well as sports and cultural activities. It was the hope of management of the Regional Directorate that these steps and strategies will translate into an improved performance in the examination results across the region.

The sudden emergence of COVID-19 led to a halt of school activities, and subsequent school closures at least for some months. Final year students however had to return to school during the COVID-19 lockdown period amidst some preventive measures to prepare and write the 2020 examinations. This report therefore presents an analysis of the performance of candidates that wrote the 2020 BECE and WASSCE. In this analysis, no comparison was done with previous years' performance for the following key reasons:

- the obvious reduction of figures or rates due to the split of the region into two
- the BECE results analysis now based on aggregate 36 as pass rate instead of aggregate 30 in the previous years
- the need to keep focus on revealing the quality of pass rather than doing a wholesale comparison of pass rates by years

## **2.0 OVERVIEW OF THE JHS & SHS EDUCATION SUB-SECTORS IN THE REGION**

The Volta Region has 18 administrative Districts/Municipalities that oversee the management of both basic and second cycle institutions. The Regional Office in Ho coordinates, supervises and monitors the activities of all the Districts and the schools. The list of the Districts and Municipalities in the region is presented in Appendix 1.

In 2020, the total number of Junior High Schools (JHS) in the region stood at 1,153 (873 public, 280 private) with an overall total enrolment of 94,424 (79,211 public and 15,213 private). A total of 6,445 teachers (6,127 trained, 318 untrained) were handling the JHS level across the region. **1,079 Junior High Schools registered and presented candidates to sit the 2020 BECE.**

The Senior High Schools (SHS) were 77 (67 public, 10 private), with an overall total student population of 75,952 (74,786 public, 1,166 private) and being handled by 4,540 teachers (4,023 trained, 517 untrained). The Public Technical and Vocational (TVET) institutions were 9 with 527 teachers (452 trained, 75 untrained), and there were no private TVET institutions under the GES in the region. (Please refer to Appendix 2 for data on schools). **All 67 public SHS/SHTS and 9 TVET institutions took part in the 2020 WASSCE.**

**Please note that the number of public SHS/SHTS in the region currently stands at 69.**

### **3.0 THE 2020 BECE RESULTS**

#### **3.1 Period of Exam and Registration of Candidates**

The BECE was written in September 2020 and the results were released by the West African Examinations Council (WAEC) in December 2020. The general statistics on the 2020 BECE candidates in the Volta Region is presented in table 1 below:

*Table 1*

| SN | ITEM DESCRIPTION                   | QUANTITY | MALE   | FEMALE |
|----|------------------------------------|----------|--------|--------|
| 1. | Number of Districts                | 18       |        |        |
| 2. | Number of Examination Centres      | 106      |        |        |
| 3. | Total Participating Schools        | 1,079    |        |        |
| 4. | Total Candidates Registered        | 27,917   | 14,368 | 13,549 |
| 5. | Total Visually impaired Candidates | 5        | 1      | 4      |
| 6. | Total Hearing impaired Candidates  | 24       | 14     | 10     |

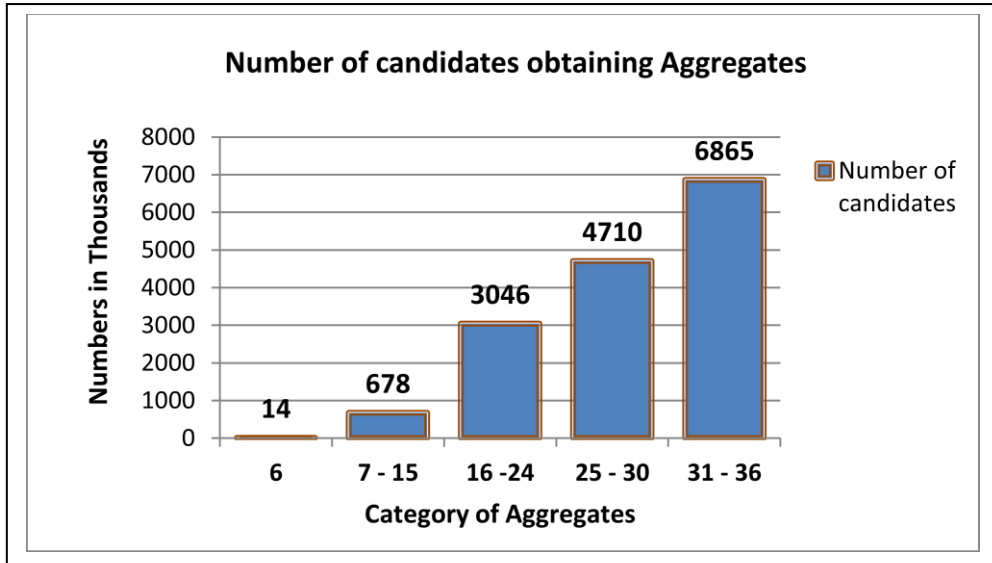

#### **3.2 Analysis of the BECE 2020 Results**

The Regional level BECE results is analyzed by computing the grades obtained by the candidates in Four core subjects; thus English Language, Mathematics, Integrated Science and Social Studies, plus the best grades obtained in any two subjects. This means that, the analysis is based on 6 subjects. It is important to explain that this is different from the National BECE ranking which is based only on grades obtained in the core subjects (thus four subjects).

The BECE 2020 results received, collated and analyzed at the Regional Directorate revealed that, the overall performance of the candidates in the region based on aggregate 36 resulted in a pass rate of 55%. As much as this could be described as good effort, it has come to light that this achievement of 55% was only possible when the pass rate was lowered from aggregate 30 to 36. An attempt by the data analysts to compute the results based on aggregate 30 revealed a pass rate of less than 50%, thus 31%.

The pass rate of 55% based on aggregates 6-36 represents a total of 15,313 candidates that obtained passes out of the 27,711 candidates that wrote the exams. The pass rate of 31% based on aggregates 6-30 represents a total of 8,452 passes out of the 27,711 candidates that wrote the exams. This indicates that, poor quality of passes beyond aggregate 30 tend to give the impression of a higher overall performance average as may be seen from the analysis of the quality of passes obtained.

**3.2.1 Quality of Passes Obtained**

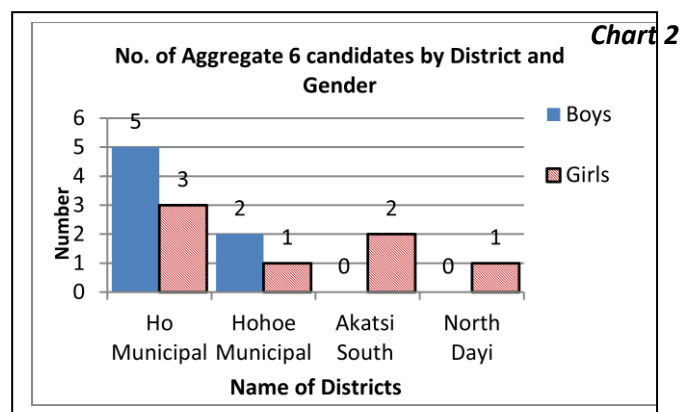

**Chart 1**

From the Chart 1 above, 14 out of the 27,711 candidates obtained aggregate 6. As many as 678 candidates obtained between aggregates 7-15, while 3,046 obtained between aggregates 16-24. A whopping 4,710 candidates obtained between aggregates 25-30, while as high as 6,865 candidates comfortably occupied the category of aggregates 31-36. It is evident that, the weaker the aggregates, the higher the number of candidates that fell in that category. This is a sign that, most of the candidates in the region are not obtaining strong learning scores to proceed to the next level of education.

The 14 candidates that obtained aggregate 6 were an equal number of boys and girls, thus 7 each. It is also notable to reveal that only 4 of the 18 Districts/municipalities in the region were able to produce aggregate 6 scoring candidates. The district with the highest number of aggregate 6 candidates was Ho Municipal. The breakdown of aggregate 6 candidates and districts is shown in the table 2 and chart 2 below:

**Table 2**

| SN           | Name of District | No. of Aggregate 6 candidates |          |           |
|--------------|------------------|-------------------------------|----------|-----------|
|              |                  | Boys                          | Girls    | Total     |
| 1.           | Ho Municipal     | 5                             | 3        | <b>8</b>  |
| 2.           | Hohoe Municipal  | 2                             | 1        | <b>3</b>  |
| 3.           | Akatsi South     | 0                             | 2        | <b>2</b>  |
| 4.           | North Dayi       | 0                             | 1        | <b>1</b>  |
| <b>TOTAL</b> |                  | <b>7</b>                      | <b>7</b> | <b>14</b> |

**Chart 2**

**3.2.2 Performance by Gender**

Generally, the performance of girls in the 2020 BECE was better when compared with that of the boys. Out of the 13,493 girls who wrote the exams, 56% (7,560) of them obtained passes (6-36) as against 54% (7,753) of the 14,272 boys obtaining passes within the same range of

aggregates. A similar trend is the case when considering the passes within the aggregate 6-30 range; 31% of girls passed, while 30% of boys passed. The girls are considered to have performed better because the total number of boys who wrote the exam was more than the total number of girls.

The performance of girls in the Afadjato South District was highly impressive and commendable. While the total number of boys presented was more than the girls, 92% (443) of the 469 girls obtained passes as against 91% (449) of the 492 boys who obtained passes (aggregate 6-36). A critical analysis of the results in terms of aggregate 6-30 showed the boys and the girls obtained an equal percentage pass of 73. (Please refer to Appendix 3 & 4 for details).

It is important to note that Ketu South Municipal and Anloga District particularly must step up their efforts to improve the performance of girls in the examination. In the case of Ketu South Municipal, for example, more girls than boys were presented to write the exams but more boys perform better than the girls.

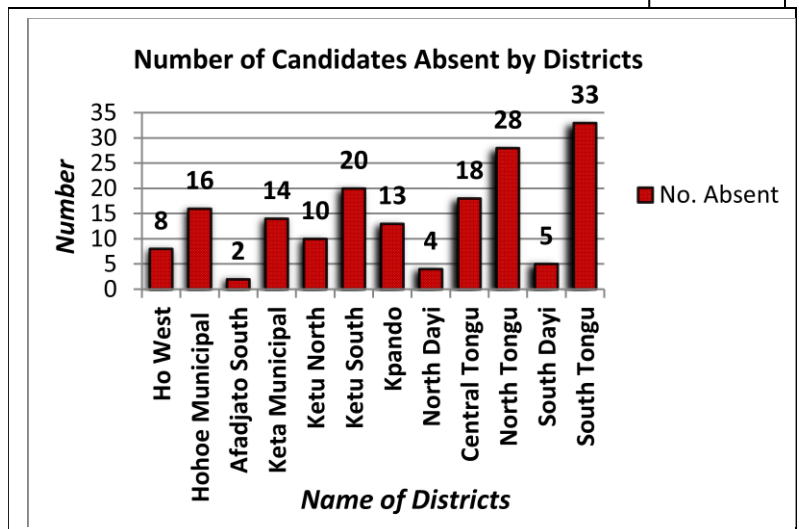

**3.2.3 Absenteeism during the Exams**

The absenteeism situation during the period of the 2020 BECE was alarming. A total of 206 candidates (93 boys, 113 girls) absented themselves from the examination for various reasons. Drop-out of candidates was the major reason which accounted for the highest of 57 candidates (33boys, 24 girls) out of the 206 absentees. The chief culprit district with the drop-out situation was South Tongu district.

Pregnancy was the next major reason with the second highest number of 31 candidates affected. Ketu South and Central Tongu recorded 6 and 5 cases respectively. This situation affects only the girls / female candidates, thereby making it a critical concern for authorities and stakeholders to find solutions to.

As may be seen from the chart 3, South Tongu is the District with the highest number of 33 absentees. The second highest of 28 cases was recorded in the North Tongu District. It is however sad that the District was unable to provide a breakdown of the reasons for the absenteeism as required. We suspect that pregnancy and drop-out cases may dominate the reasons if further diligence is done to ascertain the reasons.

**Chart 3**

### 3.2.4 District Performance and Regional Ranking

The percentage scores obtained by the Districts were also analyzed based on aggregates 6-30 and aggregates 6-36 respectively. The Districts were ranked in order of merit and further scrutinized by quality of performance. Tables 3 and 4 below show the regional ranking of the Districts per the two aggregate ranges.

**Table 3**

**DISTRICT POSITIONS - AGGREGATES 6-36**

| 2020 Reg. Position       | DISTRICT        | Sex | No. Present | % SCORE BY SEX | DIST. SCORE (2020) |
|--------------------------|-----------------|-----|-------------|----------------|--------------------|
| 1st                      | Afadjato South  | B   | 492         | 91%            | 92%                |
|                          |                 | G   | 469         | 92%            |                    |
| 2nd                      | Adaklu          | B   | 265         | 74%            | 77%                |
|                          |                 | G   | 242         | 79%            |                    |

| 17th                     | Anloga          | B   | 865         | 21%            | 20%                |
|                          |                 | G   | 733         | 19%            |                    |
| 17th                     | Akatsi North    | B   | 235         | 20%            | 20%                |
|                          |                 | G   | 221         | 20%            |                    |
| REGIONAL TOTAL / AVERAGE |                 | B   | 14272       | 30%            | 31%                |
|                          |                 | G   | 13439       | 31%            |                    |

As may be seen from the tables 3 and 4 above, the 50% or more pass rate target for the Districts of the region was achieved by only two Districts (Afadjato and Agortime-Ziope) in the aggregate 6-30 analysis. It is interesting however to note that when the aggregate was lowered to 36, the number of Districts scoring 50% or more passes were 12. The Afadjato South District has shown remarkable improvement in performance to top the Regional league table in both the aggregate 6-30 and 6-36 analysis of the BECE results. It is notable also that, the Afadjato South District has not been able to produce any aggregate 6 scoring candidates but the District has maintained a steady trend in improving general performance based on aggregate 6-30 in the BECE over the past three years.

While the Adaklu District occupied the second position on the aggregate 6-36 league table, they were pushed down to the 6<sup>th</sup> position on the aggregate 6-30 league table. This is a sign that, the District produced a higher number of weak passes (aggregates 31-36) which could not allow them to maintain the same second position in the aggregate 6-30 analysis.

Agortime-Ziope District occupied the second position on the aggregate 6-30 league table and moved to third position in the aggregate 6-36 league tables. The data analysts consider the performance of Agortime-Ziope District to be encouraging since they produced more quality grades than Adaklu which overtook them in the aggregate 6-36 league table. A similar view holds for Ho Municipal which appeared at third position (aggt 6-30) and dropped to 6th position in the aggregate 6-36 analysis.

The data analysts hold the view that the Districts that appear at the bottom of the league table or have obtained passes below 50% in both the aggregates 30 and 36 analysis must adopt an 'intensive care' approach to redeem themselves from the sinking performance situation. (*Appendix 3 & 4 has details*).

### **3.2.5 Zero Percent Schools (Aggregate 31+ and 37+)**

Careful analysis was done concerning the schools which could not produce any candidate that obtained even the weakest aggregate in the 6-30 range or 6-36 range. This means that in terms of aggregate 6-30 analysis, the best aggregate in such a school will begin from 31 or above, and in terms of aggregate 6-36 analysis the best aggregate in such a school will begin from 37 and above. These are the schools referred to as 'zero percent schools'.

It is sad to note that in the 2020 BECE results analysis, a total of 155 schools scored zero percent when the aggregate 6-30 analysis was done. Ketu South Municipal produced the highest of 29 out of the 121 schools that took part in the exams. Ketu North municipal was the next highest with 18 out of 77 schools, followed by Hohoe Municipal with 17 out of 75 schools, while Ho Municipal produced the lowest number of 2 such schools.

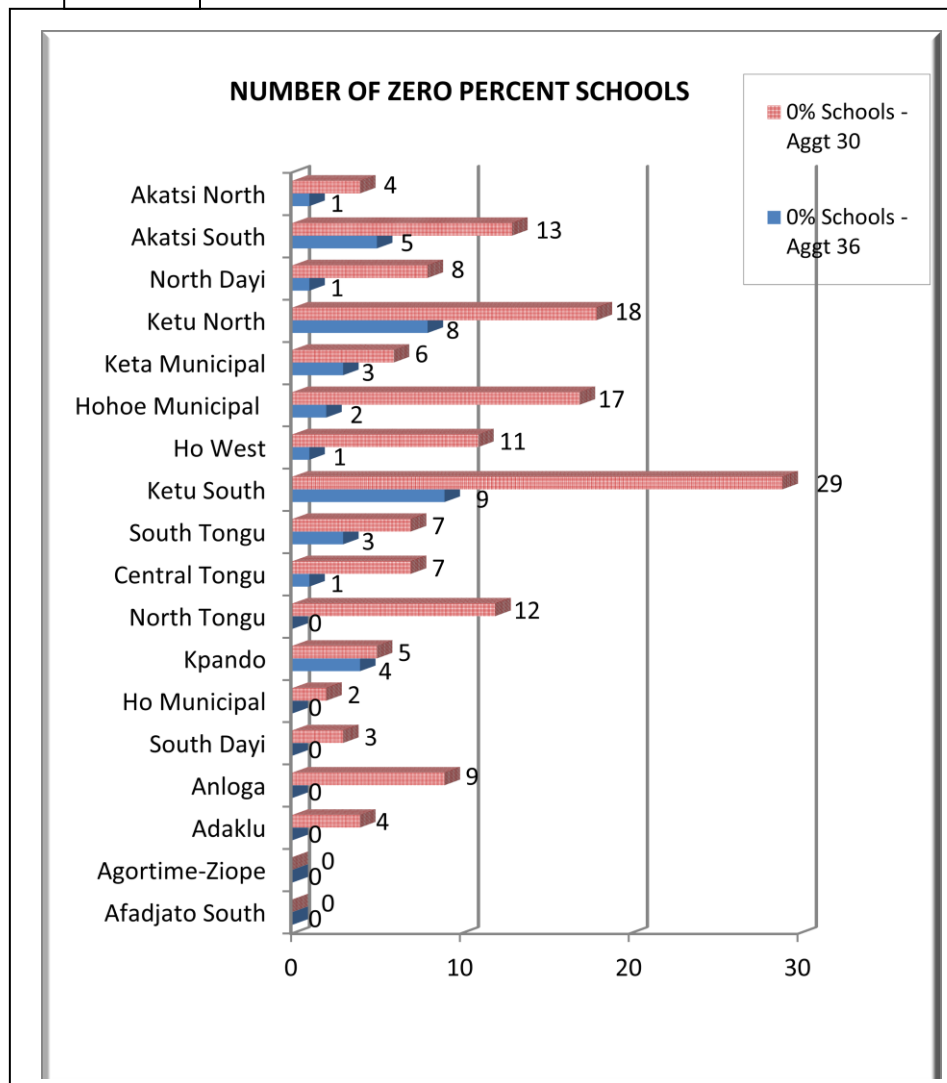

In the aggregate 6-36 analysis, a total of 38 zero percent schools were recorded in the region. Ketu South Municipal again produced the highest of 9 schools in this category, followed by Ketu North and Akatsi South which produced 8 and 5 zero percent schools respectively. The

other affected Districts produced between 3 and 1 of such schools as may be seen from the table 5 and chart 4 below.

**Table 5**

| NUMBER OF ZERO PERCENT SCHOOLS |                 |                        |                        |
|--------------------------------|-----------------|------------------------|------------------------|
| SN                             | DISTRICT        | 0 % Schools – Aggt. 36 | 0 % Schools – Aggt. 30 |
| 1                              | Afadjato South  | 0                      | 0                      |
| 2                              | Agortime-Ziope  | 0                      | 0                      |
| 3                              | Adaklu          | 0                      | 4                      |

| 10                             | South Tongu     | 3                      | 7                      |
| 11                             | Ketu South      | 9                      | 29                     |
| 12                             | Ho West         | 1                      | 11                     |
| 13                             | Hohoe Municipal | 2                      | 17                     |
| 14                             | Keta Municipal  | 3                      | 6                      |
| 15                             | Ketu North      | 8                      | 18                     |
| 16                             | North Dayi      | 1                      | 8                      |
| 17                             | Akatsi South    | 5                      | 13                     |
| 18                             | Akatsi North    | 1                      | 4                      |
| <b>REGIONAL TOTAL</b>          |                 | <b>38</b>              | <b>155</b>             |

**Chart 4**

*Only Afadjato South and Agortime-Ziope Districts have been able to eradicate the 'zero percent schools' situation in both aggregate 6-30 and 6-36 categories of the 2020 results analysis.*

### 3.2.6 Performance in BECE Core Subjects

The core subjects; English Language, Mathematics, Integrated Science and Social studies are considered very critical areas for students in their studies and progression to higher levels of education. This is because these subjects form the basis for quality learning and to a large extent the entry requirements for progression in Ghana's education system. The performance of candidates in core subjects is therefore analyzed to ascertain how students are building a good foundation for holistic education through schooling.

In the analysis of the 2020 BECE results, the core subject performances were analyzed by computing the number of candidates that obtained grades 1-5 (for aggregate 6-30) and grades 1-6 (for aggregate 6-36) in each core subject.

Table 6

| Performance in BECE Core Subjects - Grades 1-5 |                    |                  |         |                                |         |                               |         |
|--|--------------------|------------------|---------|--------------------------------|---------|-------------------------------|---------|
| SN   | CORE SUBJECTS      | REGIONAL AVERAGE |         | DISTRICT WITH HIGHEST % PASSES |         | DISTRICT WITH LOWEST % PASSES |         |
|  |                    | TOTAL PASSES     | % SCORE | DISTRICT                       | % SCORE | DISTRICT                      | % SCORE |
| 1  | English Language   | 11220            | 40%     | Ho Municipal                   | 68%     | Central Tongu                 | 14%     |
| 2  | Mathematics        | 7438             | 27%     | Afadjato South                 | 57%     | Akatsi North                  | 8%      |
| 3  | Integrated Science | 9730             | 35%     | Afadjato South                 | 71%     | North Dayi & Akatsi North     | 24%     |
| 4  | Social Studies     | 8790             | 31%     | Afadjato South                 | 68%     | Akatsi North                  | 18%     |

From the table 6 above, it is evident that the region could not obtain at least 50% or more passes in any of the four Core Subjects. A total of 11220 candidates presenting 40% obtained passes in English language. 7438 (27%) passed Mathematics, 9730 (35%) passed Integrated Science while 8790 (31%) obtained passes in Social Studies.

Candidates from the Ho Municipality obtained the highest of 68% passes in English language, while Afadjato South District obtained 71% passes to top the performance in Integrated Science. The candidates from Afadjato South District performed better in all the Core Subjects except English Language. Sadly, the Akatsi North District has maintained the lowest performance in all the four Core Subjects except English Language in which the Central Tongu District was comfortably at the bottom with 14% passes. North Dayi District performed at the same percentage of 24% in Integrated Science just like Akatsi North.

Table 7

| Performance in BECE Core Subjects - Grades 1-6 |                    |                  |         |                                |         |                               |         |
|--|--------------------|------------------|---------|--------------------------------|---------|-------------------------------|---------|
| SN   | CORE SUBJECTS      | REGIONAL AVERAGE |         | DISTRICT WITH HIGHEST % PASSES |         | DISTRICT WITH LOWEST % PASSES |         |
|  |                    | TOTAL PASSES     | % SCORE | DISTRICT                       | % SCORE | DISTRICT                      | % SCORE |
| 1  | English Language   | 16214            | 58%     | Afadjato South                 | 87%     | Keta Municipal & Akatsi South | 49%     |
| 2  | Mathematics        | 12762            | 46%     | Adaklu                         | 79%     | Akatsi North                  | 20%     |
| 3  | Integrated Science | 14545            | 52%     | Afadjato South                 | 90%     | Akatsi North                  | 40%     |
| 4  | Social Studies     | 13591            | 49%     | Afadjato South                 | 86%     | Akatsi North                  | 32%     |

In the table 7 above, the percentage passes in the Core Subjects have increased due to the addition of grade 6 as part of the pass range. The regional percentage passes in English Language stood at 58% (16214). That of Integrated Science was 52% (14545) while the other two core subjects; Mathematics and Social Studies were still below 50%.

The Afadjato South District again topped the performance in three Core Subjects; thus English Language, Integrated Science and Social Studies, while Adaklu District pulled a 79% pass to lead the performance in Mathematics. The Akatsi North District has remained at the bottom in three core subjects; Mathematics, Integrated Science and Social Studies, while Keta Municipal and Akatsi South District obtained 49% passes to maintain the bottom position in English Language. *(Please refer to Appendix 5a & 5b).*

The data analysts hold the view that, the performance in the core subjects have greatly been reflected in the overall or general performance analysis in the Regional league table presented earlier in this report. It is therefore not surprising that Afadjato South District was on top of the league table in all instances of the analysis of the 2020 BECE results.

#### **4.0 THE 2020 WASSCE RESULTS**

##### **4.1 Period of Exam and Participation of Candidates**

The West African Senior School Certificate Examinations (WASSCE) started in July 2020 (with Practical sessions) and the theory sessions were written in August through to September 2020. The results were released by WAEC in November 2020.

A total of 26,433 candidates from 67 public Senior High and Senior High Technical Schools (SHS/SHTS) took part in the examination in the Volta Region. 49.2% (13,004) of the candidates were boys and 50.8% (13,429) were girls. The high number of girls that took part in the examination as compared to the number of boys is an indication that, more female students may have been accessing Senior High level education than previous years. This assumption may have to be confirmed with a careful analysis of general enrolment, transition and retention data of students in Senior High Schools in the region.

##### **4.2 Analysis of the WASSCE 2020 Results**

The collation and analysis of the 2020 WASSCE results at the Regional level is done by computing the number of students that obtained grades A1 to C6 in the Core Subjects; English Language, Mathematics, Integrated Science and Social Studies. The Regional Directorate does not include grades D7 and E8 in its analysis of WASSCE results because; those grades are not often accepted as part of entry requirements to the Tertiary Institutions. The elective subjects which are about 56 in number have not been analyzed in this report. The Regional Directorate aims to produce an analysis of performance in Elective subjects in a separate report. Also, the core subjects' exams results from the Technical and Vocational (TVET) institutions are not part of the WASSCE analysis because the grading system for the TVET is different from the WAEC system for SHS/SHTS.

##### **4.2.1 Overall Passes Obtained in WASSCE Core Subjects**

The Regional Average performance in the 2020 WASSCE four core subjects was approximately 41% (40.9%). A distribution of this performance by gender puts the boys at 42.3% while the girls performed at an overall average of 39.7%. The data analysts consider the performance of

boys to be generally better than that of girls since more girls than boys wrote the exams. (Refer to Appendix 6 for details).

The subject specific subject performance in the region and the schools with highest and lowest performances in each subject is presented in the table 8 below.

Table 8

| Performance in WASSCE Core Subjects - Grades A1-C6 |                    |                  |         |                                |         |                               |         |
|--|--------------------|------------------|---------|--------------------------------|---------|-------------------------------|---------|
| SN   | CORE SUBJECTS      | REGIONAL AVERAGE |         | SHS/SHTS WITH HIGHEST % PASSES |         | SHS/SHTS WITH LOWEST % PASSES |         |
|  |                    | TOTAL PASSES     | % SCORE | SCHOOL                         | % SCORE | SCHOOL                        | % SCORE |
| 1  | English Language   | 12089            | 45.7%   | Kpando SHS                     | 98.3%   | Alavanyo SHTS                 | 3.6%    |
| 2  | Mathematics        | 10098            | 38.2%   | Kpando SHS                     | 99.7%   | Alavanyo SHTS                 | 0.7%    |
| 3  | Integrated Science | 7763             | 29.4%   | Kpando SHS                     | 99.7%   | Akpafu SHTS                   | 0.7%    |
| 4  | Social Studies     | 13345            | 50.5%   | Kpando SHS                     | 98.0%   | Akome SHTS                    | 10.9%   |

From the table above, it is clear that the SHS/SHTS in the region could not give the region an average of 50% or more in all the core subjects except in Social Studies in which the region obtained 50.5%.

Kpando Senior High School has performed remarkably well by producing over 90% of the 592 candidates who obtained between grades A1 and C6 in all the four Core Subjects. The School achieved a near 100% pass rate in Mathematics (99.7%) and Integrated Science (99.7%).

Alavanyo Senior High Technical School was the lowest performing School in English Language and Mathematics, while Akpafu Senior High Technical School and Akome Senior High Technical School maintained the bottom positions in Integrated Science and Social Studies respectively.

#### 4.2.2 Quality of Passes Obtained by Gender

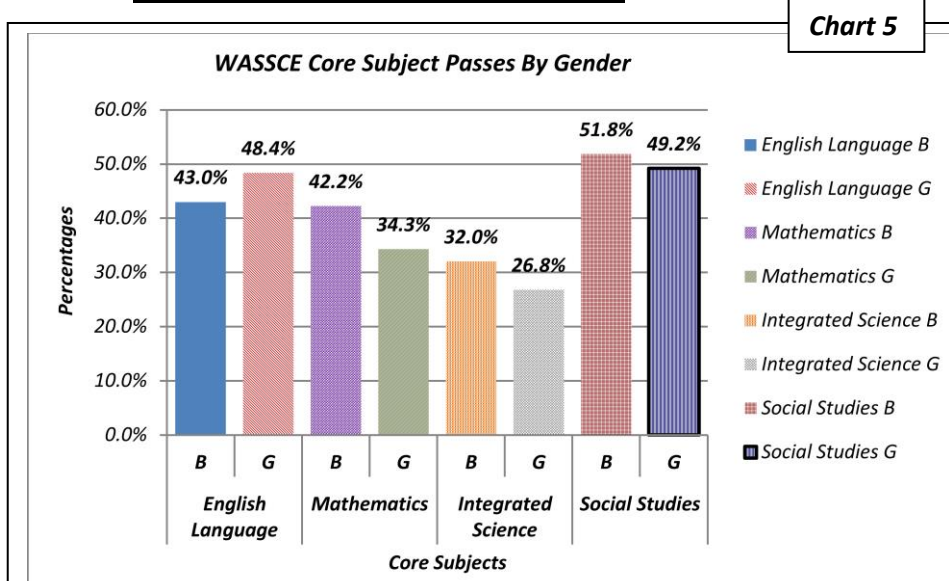

Table 9

| QUALITY OF WASSCE CORE SUBJECTS PASSES BY GENDER |                    |                |       |
|--|--------------------|----------------|-------|
| SN   | CORE SUBJECTS      | % SCORE BY SEX |       |
| 1  | English Language   | B              | 43.0% |
|  |                    | G              | 48.4% |
| 2  | Mathematics        | B              | 42.2% |
|  |                    | G              | 34.3% |
| 3  | Integrated Science | B              | 32.0% |
|  |                    | G              | 26.8% |
| 4  | Social Studies     | B              | 51.8% |
|  |                    | G              | 49.2% |

Chart 5 and Table 9 above indicate that, apart from English language where the girls performed at 48.4% against the boys' 43.0%, the boys performed better in all the other core subjects than the girls. The girls' performance of 26.8% in Integrated Science was the lowest. Even though the girls' performance of 49.2% in Social Studies was better than the other core subjects, the boys still maintained a higher performance of 51.8% in Social Studies. It is notable that, it was only in Social Studies that a slightly above average performance was obtained by the boys. Generally, the performance of both boys and girls in Integrated Science was the lowest among the four core subjects and this must be checked and addressed. The low performance of girls in Mathematics and Integrated Science must be checked and addressed if the region is to make the Girls in Science Technology Engineering and Mathematics (STEM) fields a reality and achievable agenda.

It is very necessary for schools such as Avenor SHS, Abor SHS, Ave SHS, Afadjato SHTS and Alavanyo SHTS, and a host of the schools that have performed below the overall 50% or more targets to particularly step up their efforts towards improving the performance of Girls especially in the Mathematics and Science subjects. Some of the Schools below the 50% mark have also not done well in the English Language.

#### 4.2.3 The Top Ten Schools in the Regional Ranking

Table 10

The table 10 above shows the top ten performing Senior High / Senior High Technical Schools in the region in the WASSCE 2020 core subject performance analysis. It will be observed that Kpando Senior High School topped the regional league of Senior High Schools in the region with an overall percentage of 98.9%, followed by Mawuli SHS which obtained 92.9%. It is worthy to mention that Leklebi SHS (a relatively small and unpopular school) has pulled a surprise to occupy the third position on the league table with a performance of 90.4%. This is a remarkable achievement for Leklebi SHS since it has succeeded in pushing down the popular and over-subscribed schools such as Bishop Herman, OLA and Keta SHTS on the league table to maintain the third position with no mere a mark than above 90%.

It is also refreshing to discover schools like Taviefe SHS, Abutia SHTS, Vakpo SHS and Peki SHS in the league of the top ten schools in the region with all of them performing above the average of 50%.

#### 4.2.4 Schools that obtained Overall 50% and Above

It has been observed that a total of twenty-one (21) schools obtained 50% or above in the Core Subject analysis. The list of schools is provided in table 11 below.

Table 11

|  |                        | G   | 473            |               |             |                |                | 52.1%                  |                 |
| 20   | ADAKLU SHS             | B   | 93             | 69.8%         | 91.6%       | 16.8%          | 34.2%          | 54.0%                  | 53.1%           |
|  |                        | G   | 109            |               |             |                |                | 52.3%                  |                 |
| 21   | DORFOR SHS             | B   | 108            | 39.2%         | 72.7%       | 27.8%          | 70.9%          | 53.9%                  | 52.6%           |
|  |                        | G   | 119            |               |             |                |                | 51.5%                  |                 |

Despite these 21 schools have performed above average in the overall analysis, it is very important and necessary for some of the schools to pay particular attention to their performance in specific core subjects. For example, Volo SHS, Agate SHS and Dorfor SHS must step up efforts to improve their performance in the English Language since they all obtained below 40% pass rate in the English Language. In terms of Mathematics performance, Sogakope SHS, E.P.C Mawuko Girls SHS, St. Mary's Sem. SHS and Keta SHTS must adopt strategic measures to improve performance.

Schools such as Adaklu SHS, Dorfor SHS and Peki SHS have scored too low in Integrated Science and must therefore take critical measures to improve in that area. Adaklu SHS, Likpe SHS and Tsito SHTS may have to work hard to improve in the area of Social Studies.

## **5.0 THE 2020 TVET CORE SUBJECT EXAM RESULTS**

The Technical Vocational institutions do not write the WASSCE conducted by WAEC. Rather they write the National Board for Professional and Technician Examinations (NABPTEx) Core Subject exams and the elective exams conducted by the National Technical Unit of the Ghana Education Service. In analyzing the results of the 2020 NABPTEx exams, the grades; Distinction, Credit and Pass obtained by the candidates in each core subject; English Language, Mathematics, Integrated Science and Social Studies were collated for each school.

### **5.1 Analysis of the NABPTEx 2020 Exam Results**

Nine (9) public TVET Institutions participated in the NABPTEx core subject exams. A total of 2661 candidates (2065 boys, 596 girls) wrote the exams in the region. Generally, the regional overall core subject pass rate obtained was 58% with the boys obtaining the overall of 61% while the girls obtained 48%. It is clear from the statistics of the total number of candidates that wrote the exams that, there is still relatively low number of girls that enroll into our TVET institutions. In the particular case of the 2020 candidates, the boys were about 78% of the total candidates presented while the girls formed only 22% of the total candidates. In each of the nine TVET institutions, the number of female candidates was lower than that of the male candidates.

#### **5.1.1 Overall Performance in Core Subjects (NABPTEx)**

In the area of TVET, the results indicated that English Language was the core subject in which the candidates obtained the highest performance of 70.3%. Mathematics was the subject with the lowest performance of 32.3%. The Performance in Integrated Science (59.6%) and Social studies (67.9%) were above average. The specific core subject performance in the region and the TVET institutions with highest and lowest performances in each subject is presented in the table 12 below.

Table 12

| Performance in NABPTEX Core Subjects - Distinction - Pass |                    |                  |         |  |         |                                       |         |
|---|--------------------|------------------|---------|--|---------|---------------------------------------|---------|
| SN  | CORE SUBJECTS      | REGIONAL AVERAGE |         | TVET SCHOOL WITH HIGHEST % PERFORMANCE |         | TVET SCHOOL WITH LOWEST % PERFORMANCE |         |
|   |                    | TOTAL PASSES     | % SCORE | SCHOOL                                 | % SCORE | SCHOOL                                | % SCORE |
| 1   | English Language   | 1871             | 70.3%   | Amedzofe Tech. Inst.                   | 97.4%   | Anloga Tech. Inst.                    | 52.1%   |
| 2   | Mathematics        | 859              | 32.3%   | Amedzofe Tech. Inst.                   | 80.8%   | C.Y.O Voc. Trn. Centre                | 12.1%   |
| 3   | Integrated Science | 1585             | 59.6%   | Amedzofe Tech. Inst.                   | 97.4%   | Comboni Voc. Tech.                    | 25.5%   |
| 4   | Social Studies     | 1854             | 69.7%   | Amedzofe Tech. Inst.                   | 92.3%   | Anloga Tech. Inst.                    | 50.4%   |

From the table 12 above, Amedzofe Technical Institute demonstrated an impressive performance in all the four core subjects by obtaining the highest pass rates. Though obtaining the highest performance in Mathematics, it was their lowest performance compared with the performance in the other three core subjects.

Anloga Technical Institute obtained 52.1% and 50.4% for English Language and Social Studies respectively as the lowest performance on the league table. It is impressive to see that, even though Anloga Tech. Institute scored the lowest performances in English and Social Studies, their performance as above average. This also indicates that the performance in those subjects was highly competitive among the nine TVET institutions.

The situation of lowest performance in Mathematics and Integrated Science is worrying. C.Y.O Vocational Training Centre obtained less than 15% performance in Mathematics while Comboni Vocational Technical Institute (Sogakope) obtained less than 30% to take the bottom position in Integrated Science.

5.1.2 Quality of NABPTEX Core Subject Performance by Gender

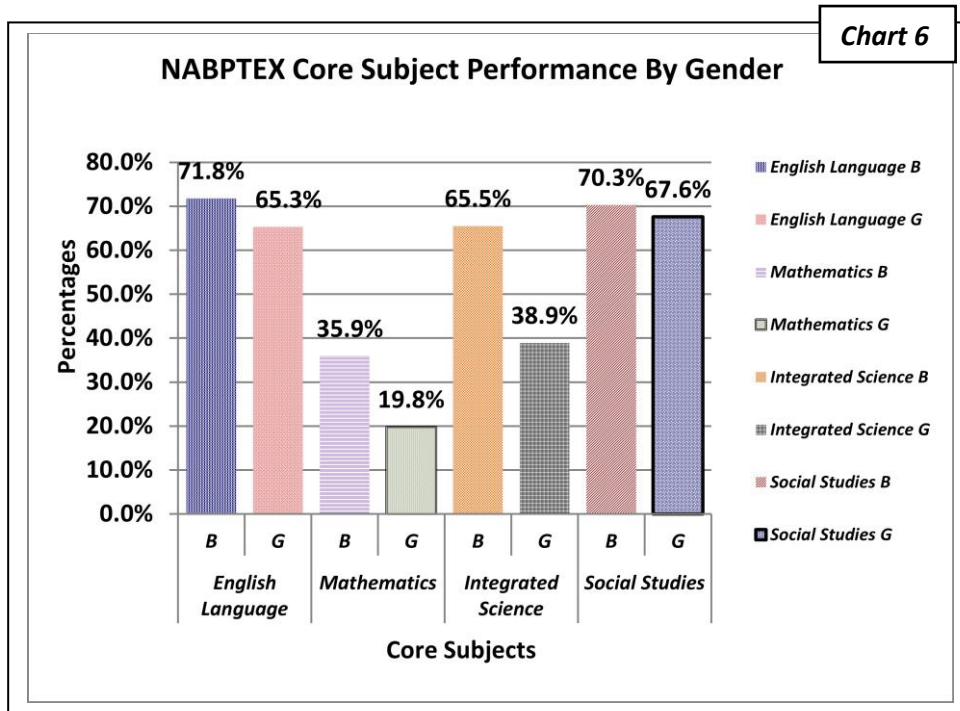

Table 13

| QUALITY OF NABPTEX CORE SUBJECTS PERFORMANCE BY GENDER |                    |                |       |
|--|--------------------|----------------|-------|
| SN   | CORE SUBJECTS      | % SCORE BY SEX |       |
| 1  | English Language   | B              | 71.8% |
|  |                    | G              | 65.3% |
| 2  | Mathematics        | B              | 35.9% |
|  |                    | G              | 19.8% |
| 3  | Integrated Science | B              | 65.5% |
|  |                    | G              | 38.9% |
| 4  | Social Studies     | B              | 70.3% |
|  |                    | G              | 67.6% |

Chart 6 and Table 13 above shows the performance indicators by gender in each core subject. The percentage of boys' performance was higher than that of the girls in each of the core subjects analyzed. The analysts consider the girls to have done well in English Language and Social studies because the percentage scored relative to the total number of girls indicate that more than half of the girls performed well as much as the boys.

It is notable that, even though both boys and girls performed below average in Mathematics, the girls' low performance should be a matter of serious concern. Similarly, the girls were below average in Integrated Science. The analysts hold the view that, girls' low performance in Mathematics and Integrated Science is an indication that the application of knowledge in these subject areas into their Technical and Vocational fields is likely to remain very challenging to them. This situation must be seriously reviewed and improved in order for the students to derive the best from offering the core subjects.

Apart from Amedzofe Technical and Kpando Technical Institutes, all the TVET institutions could not obtain at least 50% in Mathematics, and a similar trend is seen in the Integrated Science performance in the exception of E.P. Technical Vocational Institute, Alavanyo. Volta Technical Institute (Matse), Anloga Technical Institute and C.Y.O Vocational Training Centre for example must pay serious attention to the performance of girls in Mathematics.

### 5.1.3 The Regional TVET Ranking and Top Five Institutions

Table 14

| ORDER OF MERIT - 2020 TVET CORE SUBJECTS RESULTS ANALYSIS (NABPTX) |   |     |             |             |             |                 |                |                        |                      |

The table 14 above shows the regional ranking of the TVET institutions based on the 2020 NABPTEx Core subject exams performance. It is evident that Amedzofe Technical Institute topped the regional league of the TVET institutions in the region with an overall performance of 92%, followed by Kpando Technical institute which obtained 77% and St. Daniel Comboni Technical Vocational Institute, Liati obtaining 66% to occupy the third position.

Worthy of mentioning is the fact that, Volta Technical Institute, Matse which was the newest and youngest TVET institution in the region has performed above average to hold the sixth position, thereby pushing down three other senior institutions on the league table.

Have Technical Institute and Anloga Technical Institute were the only two institutions that have performed below average in the overall analysis. These two institutions have existed for long and therefore, must avoid such humiliations in future. Pragmatic steps must be taken to improve performance of students in these institutions. *(See Appendix 7 for full details).*

## 6.0 CONCLUSIONS

From the analysis of the 2020 BECE and WASSCE/NABPTEx results, it is clear that most of the candidates in the schools in the region are not able to obtain the grades that will enable them progress to the higher levels. In both the 1<sup>st</sup> Cycle and the 2<sup>nd</sup> Cycle situations, majority of the candidates fall in the ranges of the weaker grades; hence the common trend which was observed across all the levels being that the weaker the grades the higher the number of candidates that passed. This is affecting the quality of passes or performance in the results of the examinations.

In the BECE results, the single digit aggregates were very few and the ultimate aggregate of 6 which was desired by at least 50% of the candidates was not achieved. Only 14 candidates scored aggregate 6 in the region in the 2020 BECE and the analysts consider this situation as a serious one that needs critical attention. It was also discovered that improved passes in the core subjects will go a long way to improve the overall and general performance of candidates in all other subjects.

In the WASSCE, most schools often claim to have obtained 100% pass rate but our analysis discovered that most of the schools have included grades D7 and E8 in their analysis. When the pass range was kept at the grades (A1-C6) required for progression into tertiary level of education, most of the Schools were seriously underperforming, and in fact none of the Schools obtained 100% pass rate. A situation where none of the candidates presented in a school obtained between grades A1-C6 in a core subject is very worrying and must be checked.

In the TVET area, very few Distinction grades were obtained. Only one distinction was obtained by a boy in English Language, 8 in mathematics, 4 in social studies and none in integrated science. Only one girl each obtained distinction in Mathematics and Socials studies.

## **7.0 RECOMMENDATIONS**

The following actions are recommended towards the improvement of the examinations results.

Generally, management at all levels must do the following:

- Disseminate this results analysis report to the key stakeholders and hold forums for discussions and planning the way forward
- Intensify Supervision and Monitoring at all levels
- Empower the key stakeholders especially SMCs and BoGs to hold themselves, the School heads and teachers accountable
- Target capacity building programs to the specific needs of the institutions and the teachers
- Enforce discipline in all the schools.

### **BECE:**

- Encourage teachers to identify problem areas in the subjects and start exposing students to it from JHS 1
- Organize career guidance forums for students and sensitize them against absenteeism during examinations
- Encourage the Districts and Schools to learn best practices from each other
- Introduce Inter-Circuit and Inter-District Schools Inspection and support system
- Improve Community Participation in all schools to address the social issues affecting education delivery and performance.

### **WASSCE / TVET**

- The Regional Directorate must organize forum / Training sessions for Federation of BoGs with each school presenting at least three members to attend
- Heads of Schools must engage members of the Board of Governors and parents to understand how best the schools performance can be improved
- Encourage students to give equal attention to Core Subjects as much as the elective subjects
- Build capacity for teachers to introduce innovative teaching approaches for the benefit of students
- Schools must include a clear transformation agenda in their plans and follow it
